

## ABSTRACT

Forests – Tamil Nadu Innovation Initiatives – Providing 300 litre Fermentor and mixing blender of 50 kg capacity in modern Nursery Division, Dharmapuri for the three years at a total cost of Rs.12.00 lakhs under State Innovation Fund – Amount of Rs.10.00 lakhs – Sanction – Orders issued.

### ENVIRONMENT AND FORESTS (FR.7) DEPARTMENT

G.O.(D) No: 38

Dated : 09.02.2018

வேலிளம்பி, தை- 27

திருவள்ளூர் ஆண்டு – 2049.

Read:

- 1) From the Principal Chief Conservator of Forests Letter No. J1/24259/2017, dated: 06.09.2017.
- 2) From the Member Secretary, State Planning Commission Letter No. 1644/SPC(PC)/2017, dated 14.11.2017.

### ORDER:

In the letter first read above, the Principal Chief Conservator of Forests has stated that fermentation activities, by being one of the first agribusiness activities, have expanded the range of activities that define agriculture to go beyond food production to processing of crops in order to produce new materials; some of them serve for nourishment, while others have different purposes. With fermentation, the agricultural system expanded to include wineries and bakeries in addition to field crops and livestock. Now, fermentation is a key to generating bio-fuels and bio-fuel refineries are becoming a part of agribusiness, linking agriculture to the energy sector. The new bio-economy will drastically expand the range of products that originated with agricultural activities to include food, new medicines and chemicals and thus provide new sources of support to the rural sector to make the rural economy a much bigger part of the major industrial sector. Since the bio-economy is knowledge intensive and requires significant investment in research and development, both to discover new products as well as to protect against disease, the agricultural sector and the rural regions will be involved in modern bio-economy activities to expand their scientific capabilities. It is expected to see an inflow of capital, both physical and human, to the life science disciplines that will support the new bio-economy. This investment in research is likely to forge a link between agricultural research, engineering and scientific research.

2. The Principal Chief Conservator of Forests has, therefore, requested to sanction a sum of Rs.12.00 lakhs (Rupees Twelve lakhs only) for providing 300 litre fermentor and mixing blender of 50 kg capacity in modern Nursery Division, Dharmapuri for a period of three years from 2017-2018 to 2019-2020 under State Innovation Fund.

3. The State Planning Commission has recommended this proposal in the letter second read above.

4. The Government, after careful consideration, accept the proposal of the Principal Chief Conservator of Forests and accord administrative sanction for a sum of Rs.12.00 lakhs (Rupees Twelve lakhs only) and financial sanction for a sum of Rs.10.00 lakhs (Rupees Ten lakhs only) towards the scheme of providing 300 litre fermentor and mixing blender of 50 kg capacity in Modern Nursery Division, Dharmapuri under State Innovation Fund during the year 2017-2018 as detailed below:-

(Rupees in lakhs)

Sl. No.	Name of scheme	Recommended outlay			Total
		1 <sup>st</sup> Year	2 <sup>nd</sup> year	3 <sup>rd</sup> year	
		(2017-18)	(2018-19)	(2019-20)	
1	providing 300 litre fermentor and mixing in blender – 50 kg capacity in Modern Nursery Division, Dharmapuri under State Innovation Fund for the year 2017-2018.	10.00	1.00	1.00	12.00
