

# DEPARTMENT OF AGRICULTURE

## UDUMALPET BLOCK, TIRUPUR

### Success Story on SADP

**1. Title of the scheme:** Special Area Development programme-  
Crop Demonstrations –Millets, Minor  
millets, Pulses and Oilseeds

**2. Objectives of the Scheme:**

1.To increase the millet & minor millets, pulses and oilseeds production by providing latest technology with critical inputs under subsidy cost

2.To uplift the economic status of the Tribal people.

**3. Implementing Department:** Agriculture

**4. Outlay of the project:** 15.9 lakhs

**5. Area covered under the scheme (Rural/Urban) :** Rural-Tribal Settlement

**6. Current Status of the parameter/situation prior to the**

**Implementation of the scheme:**

Tribal people are cultivating the single crop of millets, pulses, oilseeds and vegetables with local varieties under rainfed condition with poor yield.

**7. Impact of the scheme on SDG indicators.**

The tribal farmers are adopted the latest technologies includes good quality seeds, DAP application, use of bio fertilizers, MN mixture and Bio pesticides in above demo crop cultivation. Thereby they produced more yield and good quality produce.

**8. Target population benefited / Service Delivery improved:**

Tribal farmers-around 283 farm families consist of 1132 family members.

**9. Performance of the indicators:**

Yield and economic status of the tribal farmers is increased.

## **10. Outcome of the Project**

By adopting the latest technologies in crop cultivation and the proper guidance from the agriculture department the tribal farmers get high yield and economic status also increased.
